BIRMINGHAM - MUMBAI

Table of Contents

Preface 1

Chapter 1: Introduction to IoT 7
- **Understanding IoT** 7
  - Defining IoT 7
  - Architecture of an IoT ecosystem 8
- **History and evolution** 13
- **IoT–applications and future prospects** 14
- **Summary** 16

Chapter 2: Know Your Raspberry Pi 17
- **Understanding Raspberry Pi 3** 18
- **Important features of Raspberry Pi 3 Model B** 19
- **Setting up Raspberry Pi** 23
  - Connecting to the internet 27
- **Setting up headless Raspberry Pi** 29
- **Summary** 33

Chapter 3: Let's Communicate 35
- **The internet** 35
- **The rise of JavaScript and Node.js** 37
  - Node.js 37
  - Advantages of using Node.js for IoT 38
- **HTTP** 39
  - Implementing HTTP 40
  - HTTP server 41
  - HTTP client 44
- **MQTT** 47
  - MQTT architecture 48
  - MQTT message types 49
  - MQTT topics 49
  - QoS levels 50
  - Last will and testament 50
  - Retained messages 50
  - Persistent sessions 51
  - Keep alive message 51
- **MQTT brokers** 52
  - MQTT implementation 52
    - MQTT broker 52
    - MQTT client 54

BIBLIOTHEQUE DU CERIST

Summary 60

Chapter 4: Weather Station 61
Sensors 62
Temperature sensor DS18B20 62
DHT11 humidity sensor 64
Weather API 65
Google sheets 68
Summary 85

Chapter 5: Controlling the Pi 87
L293D 87
DC motor 89
Light-emitting diode 89
Summary 102

Chapter 6: Security Surveillance 103
Infrared sensors 103
Types of IR sensors 104
Ultrasonic sensors 112
Buzzer 116
Raspberry Pi camera module 117
Wiring up 118
Interfacing PIR sensor module HC-SR501 118
Interfacing an active IR sensor 119
Interfacing an ultrasonic sensor HC-SR04 120
Interfacing an LED 121
The code 124
Camera module code 124
Email module code 127
Sensor module code 130
Summary 136

Chapter 7: Image Recognition 137
Understanding image recognition 137
Deep learning 138
How image recognition works 139
Gathering data 140
Organizing data 142
Building a predictive model 142
Recognizing an image 143
Amazon Web Services 143
AWS S3 144
AWS Rekognition 147
Identity and access management 149

BIBLIOTHEQUE DU CERIST

Command line interface 153
Implementation 154
Create collection 156
Upload reference image 156
Face comparison 158
Wiring up 159
Interfacing IR sensor 159
Interfacing LEDs 160
Interfacing the Pi camera module 160
The code 160
Index face module code 161
Search face by image module code 164
S3 bucket module code 165
Camera module code 168
Upload reference image module code 171
Compare image module code 172
Summary 175

Chapter 8: Bot Building 177
Car chassis 178
Pulse-width modulation 179
Analog signal 180
Digital signal 181
Wiring up the bot 183
Wiring L293D with motor 183
Wiring L293D with Raspberry Pi 184
Forward movement 187
Reverse movement 187
Right turn 188
Left turn 188
Stop 188
Speed control 189
Executing the commands 193
Summary 199

Chapter 9: Security in IoT 201
The challenges in providing IoT security 202
Security in endpoint devices – constrained devices 202
Authorization and authentication 202
Device firmware upgrade 202
Secure communication 203
Data security 204
High availability 204
Identifying cyber attacks 205
Absence of standards 205
Ignorance from customers and manufactures 206

BIBLIOTHEQUE DU CERIST

Trends and challenges in specific industries 206
Automotive industries 206
Smart homes and buildings 207
Securing Raspberry Pi 208
Changing the default password 208
Changing the username 211
Making sudo require a password 213
Improving SSH security 214
Username and password security 214
Key-based authentication 214
Setting up a firewall 221
Fail2Ban 226
Summary 227

Other Books You May Enjoy 229
