

PROCEEDINGS OF THE
8TH INTERNATIONAL CONFERENCE ON TELECOMMUNICATIONS

VOLUME 1/2

CONTEL 2005

ZAGREB/CROATIA 15.6. - 17.6.2005. EDITORS: GORDAN GLEDEC & GORDAN JEŽIĆ

IEEE CATALOG NUMBER: D5EX108D
ISBN SOFTBOUND EDITION: 953-184-081-4

TABLE OF CONTENTS

VOLUME 1

Keynote Talks (Abstracts)

3G and beyond - The Future of Mobile Communication	1
Klaus-D. Kohrt	
Heterogeneous System Challenges in Control, Coordination, and Communication: A Case Study with Unmanned Ground - Aerial Vehicles	3
Kimon P. Valavanis	
Wireless Sensor Networks: The Product of a Marriage Made in Heaven	5
Magdy Bayoumi	

IPv6 Deployment and Applications

Deployment of Service Aware Access Networks through IPv6	7
Tim Stevens, Koert Vlaeminck, Wim Van de Meerssche, Filip De Turck, Bart Dhoedt, Piet Demeester	
The Deployment of IPv6 stateless auto-configuration in access network	15
Haibo Wen, Xudong Zhu, Yinglan Jiang, Renxiang Yan	
Implementing the Reliable Server Pooling Framework	21
Thomas Dreibholz, Erwin P. Rathgeb	
IPv6 Security: Improvements and Implementation Aspects	29
Drago Žagar, Saša Vidaković	
Enhancing IP security by integrating Quantum Key Distribution into communication processess	35
Mohamed Ali Sfaxi, S. Ghernaouti-Helie, Gregoire Ribordy, Olivier Gay	
A Survey of IPv6 Site Multihoming Proposals	41
Pekka Savola, Tim Chown	
Exploiting Multihoming for Low Latency Handoff in Heterogeneous Networks	49
Vikrant S. Kaulgud, Sakib A. Mondal	
IPv6 Multihoming Architecture Based on Multicast for Media Streaming in Mobile Heterogeneous Networks	57
Li-Der Chou, Jui-Ming Chen	
Enhancement of Binding Updates for Mobile Networks with Multicast in IPv6 Environment	63
Yen-Wen Chen, Ji-Min Shih	
Dibbler - a portable Dynamic Host Configuration Protocol for IPv6 implementation	71
Tomasz Mrugalski	

New Generation Networks

Traffic Steering and Service Continuity in GSM - WCDMA Seamless Network	77
Dalibor Turina, Anders Furuskär	
The Vision on Future TD-SCDMA	83
Guangyi Liu, Jianhua Zhang, Ping Zhang	
Support of Multimedia Broadcast/Multicast Service in UMTS Networks	91
Tonci Ivankovic	
Goodput Analysis of 3G Wireless Networks Supporting m-health Services	99
Richard Bults, Katarzyna Wac, Aart van Halteren, Victor Nicola, Dimitri Konstantas	
Network Resource Reservation in the Next Generation Networks using BICC as a Call Control Protocol	107
Lovre Hribar, Damir Buric, Alen Bulic	

Network Modeling and Simulation

Object-Oriented Modeling of Multi-Layer Network Structures	113
Valeriy Naumov, Oleg Chistokhvalov	
A Conceptual Modeling Framework for Internet Traffic Engineering Problems	121
Sudip Misra, S. C. Misra, I. Woungang	
Scalable Tree Aggregation for Multicast	129
Alexandre Guitton, Joanna Moulierac	
Comparative Evaluation of Packet Classification Algorithms for Implementation on Resource Constrained Systems	135
Gianluca Varenni, Federico Stirano, Elisa Alessio, Mario Baldi, Loris Degioanni, Fulvio Rizzo	
Hardware-based Network Management Framework for Monitoring and Testing of System-On-Chips	141
Oussama Laouamri, Chouki Aktouf	

Network Design and Simulation Tools

Net-Planner: a Capacity Allocation Tool	147
George Deprez, M. Padmaraj, Suku Nair	
NEMAN: A Network Emulator for Mobile Ad-Hoc Networks	155
Matija Pužar, Thomas Plagemann	
Network Virtual Machine (NetVM): A New Architecture for Efficient and Portable Packet Processing Applications	163
Loris Degioanni, Mario Baldi, Diego Buffa, Fulvio Rizzo, Federico Stirano, Gianluca Varenni	
Clustering Network Simulation: Graph Partitioning Approach	169
Zrinka Puljiz, Miljenko Mikuc	
An Approach to Integration of Network Design and Simulation Tools	173
Muhammad Azizur Rahman, Algirdas Pakstas, Frank Zhigang Wang	

WLAN/Radio Physical Layer

Performance of Space-Frequency Coded COFDM in Narrowband Interference	181
Celal Ešli, Hakan Deliç	
Comparison of ML Carrier Estimation Schemes Based on APSSB and Preamble for OFDMA in Fading Channel	189
Wenfei Xie, Shuang Li, Jianhua Zhang, Ping Zhang	
Modeling Spatial Aspects of Mobile Channel in Uniformly Distributed Scatterers	195
Mohammed T. Simsim, Noor M. Khan, Predrag B. Rapajic	
Simulation of Quantum Key Distribution with Noisy Channels	203
Attila Pereszlényi	
Diagnosis of QoS degradation in Multi-Standard Radio Networks	211
Arnaud Gonguet, G. Delègue, S. Bétgé-Brezetz	

Telecom Market

Forecasting mobile market development	219
Irena Grgic Gjerde, Rima Venturin, Kjell Stordahl	
Defining Architecture and Key Issues towards WLAN Roaming	225
Chris Basios	
AAA Solution for Interworking between Mobile Networks and Wireless LANs	231
Toni Janevski, Aleksandar Tudzarov, Dusko Temkov, Perivoje Stojanovski, Goce Stojanov, Meri Janevska, Dusko Kantardziev, Mine Pavlovski, Tome Bogdanov	
Real-Time Charging in Third-Generation Mobile Networks	239
Balint D. Ary, Gabor Debrei, Sandor Imre	
Service Deployment Strategies for Telecom Operators	247
Pradeep K. Mohanty	
Open Standards for Service Delivery Environment in the Telecommunications	251
Darko Huljenic, Ozren Labor	
New Possibilities for Knowledge Discovery in Telecommunication Companies	259
Berislav Nadinić, Rafael Buždon	
An Insight into Challenges of International and Multicultural Knowledge Transfers within ICT Industry	265
Siniša Krajnović, Darko Huljenic	

E-Business

A Single Sign-On Framework for Web-Services-based Distributed Applications	273
Markus Hillenbrand, Joachim Götze, Jochen Müller, Paul Müller	
Quality Model for the World Wide Web	281
Gordan Gledec	
Logical Design of Data Warehouses from XML	289
Marko Banek, Zoran Skočir, Boris Vrdoljak	
KrokodilAgent: A Supply Chain Management Agent	297
Ana Petrić, Krešimir Jurasović	

Location & Context-Aware Services

Application of Connectivity Information for Context Interpretation and Derivation	303
Jun-Zhao Sun, Jaakko Sauvola, Jukka Riekk	
Discovering services from mobile terminal by means of peer-to-peer network and semantic descriptions	311
Darije Ramljak	
Boosting the Performance of an Adaptive Push System in Environments with Locality of Demand	319
Petros Nicopolitidis, Georgios I. Papadimitriou, Andreas S. Pomportsis	
Location-Aware Information Services using User Profile Matching	327
Alisa Devlić, Gordan Ježić	
Client Based Wireless LAN Indoor Positioning	335
Ivica Čubić, Dinko Begušić, Tanja Mandić
