

UNIVERSITY OF SHARJAH

Handwriting Segmentation of Unconstrained Arabic Text

BY
Rahima Bentrchia

A THESIS SUBMITTED IN PARTIAL FULFILLMENT OF THE
REQUIREMENTS FOR THE DEGREE OF MASTER OF SCIENCE
IN

Computer Science

AT
DEPARTMENT OF COMPUTER SCIENCE
UNIVERSITY OF SHARJAH

SHARJAH, UNITED ARAB EMIRATES

Dedication

I dedicate the outcome of this work to my great parents....

My beloved mother who gave me a lot and beard the pain of my departure to study.

My dear father: Dr. Mohammed Bentrchia, whose encouragements pushed me forward and his right decisions enlightened my life.

To my husband Seif eddin Mechouma for his care and patience..

To my siblings: Abdelwahab, Toufik, Salah, Takiya, Afifa, and Khawla.. I don't forget Souhila, Amira, and Sohaib.

To my husband's family: my parents in law, Yacin, Meriem, Hadjer, Rabab, and Ayoub.

To my lovely new baby girl: Tasnim Nour Elsojood.

To my teachers and classmates...

Finally, to our beloved messenger: Mohammed (PBUH), the prophet of knowledge and guidance, as a reply to every one insulted him...

Acknowledgements

First of all, I would like to thank Allah the most gracious, the most merciful for aiding me in completing this work...

I thank my supervisor Dr. Ashraf Elnagar for his great assistance and guidance....

“Your advices and comments improved my work, and your teaching style showed me how the real teacher should be...”.

My thanks go also to my brothers Dr. Abdelwahab and Toufik for their valuable support.
