Table of Contents

ISSTA 2004 Conference Organization	vii
Sponsors & Supporters	viii
Session 1: Program Analysis I	
• Static and Dynamic Analysis of Call Chains in Java	1
A. Rountev, S. Kagan, M. Gibas (<i>Ohio State University</i>)	
• Software Validation via Scalable Path-Sensitive Value Flow Analysis	12
N. Dor (<i>Tel Aviv University</i>), S. Adams, M. Das, Z. Yang (<i>Microsoft Research</i>)	
• Testing of Java Web Services for Robustness	23
C. Fu, B. G. Ryder (<i>Rutgers University</i>), A. Milanova (<i>Rensselaer Polytechnic Institute</i>), D. Wonnacott (<i>Haverford College</i>)	
Session 2: Testing I	
• Testing Malware Detectors	34
M. Christodorescu, S. Jha (<i>University of Wisconsin</i>)	
• Covering Arrays for Efficient Fault Characterization in Complex Configuration Spaces	45
C. Yilmaz (<i>University of Maryland</i>), M. B. Cohen (<i>University of Auckland</i>), A. Porter (<i>University of Maryland</i>)	
• Optimal Strategies for Testing Nondeterministic Systems	55
L. Nachmanson, M. Veanes, W. Schulte, N. Tillmann, W. Grieskamp (<i>Microsoft Research</i>)	
Session 3: Empirical Studies	
• An Empirical Study of Profiling Strategies for Released Software and their Impact on Testing Activities	65
S. Elbaum, M. Hardojo (<i>University of Nebraska-Lincoln</i>)	
• An Experimental Evaluation of Continuous Testing During Development	76
D. Saff, M. D. Ernst (<i>The State Center</i>)	
• Where the Bugs Are	86
T. J. Ostrand, E. J. Weyuker, R. M. Bell (<i>AT&T Labs</i>)	
Session 4: Test Generation	
• Test Input Generation with Java PathFinder	97
W. Visser, C. S. Păsăreanu (<i>NASA Ames Research Center</i>), S. Khurshid (<i>University of Texas at Austin</i>)	
• Evolutionary Testing in the Presence of Loop-Assigned Flags: A Testability Transformation Approach	108
A. Baresel (<i>DaimlerChrysler AG</i>), D. Binkley (<i>Loyola College</i>), M. Harman (<i>Brunel University</i>), B. Korel (<i>Illinois Institute of Technology</i>)	
• Evolutionary Testing of Classes	119
P. Tonella (<i>Centro per la Ricerca Scientifica e Tecnologica</i>)	
• Tool Paper: The AGEDIS Tools for Model Based Testing	129
A. Hartman, K. Nagin (<i>Haifa University</i>)	
Session 5: Invited Talk	
• Algorithmic Testing	
R. Kurshan (<i>Cadence Design Systems</i>)	

Session 6: Testing II

- **Software Assurance by Bounded Exhaustive Testing** 133
K. Sullivan, J. Yang (*University of Virginia*), D. Coppit (*The College of William & Mary*),
S. Khurshid, D. Jackson (*Massachusetts Institute of Technology*)
- **Automated Black-Box Testing of Functional Correctness
using Function Approximation** 143
K. Meinke (*Royal Institute of Technology*)
- **On the Analytical Comparison of Testing Techniques** 154
S. Morasca, S. Serra-Capizzano (*Università dell'Capizzano*)

Session 7: Model Checking I

- **Automating Commutativity Analysis at the Design Level** 165
G. Dennis, R. Seater, D. Rayside, D. Jackson (*Massachusetts Institute of Technology*)
- **Modeling and Verification of an Air Traffic Concept of Operations** 175
C. A. Muñoz (*National Institute of Aerospace*),
G. Dowek (*Laboratoire d'Informatique*), V. Carreño (*NASA*)
- **An Optimizing Compiler for Batches of Temporal Logic Formulas** 183
J. Ezick (*Cornell University*)

Session 8: Program Analysis II

- **Active Learning for Automatic Classification of Software Behavior** 195
J. F. Bowring, J. M. Rehg, M. J. Harrold (*Georgia Institute of Technology*)
- **Improving the Adaptability of Multi-mode Systems via Program Steering** 206
L. Lin, M. D. Ernst (*Massachusetts Institute of Technology*)
- **Tool Paper: Slicing Tools for Synchronous Reactive Programs** 217
S. Ramesh, A. Kulkarni, V. Kamat (*ITT Bombay*)

Session 9: Program Analysis III

- **Exploiting Purity for Atomicity** 221
C. Flanagan (*University of California at Santa Cruz*), S. N. Freund (*Williams College*),
S. Qadeer (*Microsoft Research*)
- **Faster Constraint Solving with Subtypes** 232
J. Edwards, D. Jackson, E. Torlak, V. Yeung (*Massachusetts Institute of Technology*)
- **SABER: Smart Analysis Based Error Reduction** 243
D. Reimer, E. Schonberg, K. Srinivas, H. Srinivasan, B. Alpern,
R. D. Johnson, A. Kershenbaum, L. Koved (*IBM T.J. Watson Research Center*)

Session 10: Model Checking II

- **Model Checking XML Manipulating Software** 252
X. Fu, T. Bultan, J. Su (*University of California at Santa Barbara*)
- **A Formal Approach for Modeling and Verification of RTCORBA-based Applications** 263
M. Rossi, D. Mandrioli (*Politecnico di Milano*)
- **Verifying Process Models Built Using Parameterized State Machines** 274
B. S. Lerner (*Williams College*)

- **Author Index** 285
