“The proceedings series Advances in Computer Science Research aims to publish proceedings from conferences on the theories and methods in fields of computer science related to both hardware and software.

Topics covered by this series: Data compression, Data mining, Knowledge discovery, Digital libraries, Database modelling, High-performance computing, Control systems, Information retrieval, distributed and internet computing, Cloud computing, Data and computing security, Wireless computing, Mobile computing, Web services”

Preface

The first International Conference on Artificial Intelligence and Cloud Computing (ICAICC 2020) was held online on December 19, 2020, via Tencent Meeting. For 2022, the second International Conference on Artificial Intelligence and Cloud Computing was held on June 25, 2022 (online). The conference looks for significant contributions to all major fields of Artificial Intelligence and Cloud Computing in theoretical and practical aspects. The aim of the conference is to provide a platform to the researchers and practitioners from both academia and industry to meet and share cutting-edge development in the field.

ICAICC 2022 calls for papers in but not limited to the following areas:

Applications of Artificial Intelligence: Intelligent Control, Intelligent Search, Pattern Recognition, Automation, Image Recognition, Target Recognition, Artificial Neural Network, Intelligent Robot, Algorithm and Simulation

Intelligent Cloud and Cloud Computing: Development and Application of Internet of Things, Industrial Internet, Digital Business Model, Knowledge Processing

Modern Educational Technology: Machine Translation Models and Methods, Online Education and Curriculum Theory, Machine Learning, Internet and Open Education

And other related fields

On behalf of the Conference Organizing Committee, we would like to express our gratitude to Dr. Sun, all committee members, reviewers, participants and special thanks to Atlantis Press for publishing the accepted papers.

Contents

Peer-Review Statements	1
<i>Ranying Sun and Jane Zhang</i>	
The Communication Dilemma of the Grand Narrative of Tourism Destinations in the Context of New Media	3
<i>Renjun Zhang, Xuyuan Zhang, Hui Hong, and Cui Fang</i>	
Construction of ESP Teaching Materials Based on Undergraduate Talent Training Program	17
<i>Liu Yang</i>	
The Digital Empowerment for Cares Cloud Computing	23
<i>Shiming Tang, Chengsheng Xu, Qunfang Miao, Wenwei Fang, Xue Bai, Jiamei Jin, Junfeng Wang, Bingjun Jiang, Fangmiao Shi, Silun Gu, Xinxin Ding, Qi Chen, Lin Zhang, Caihong Li, and Xinzheng Zhang</i>	
Algorithm Research on the Best Placement of Books in University Libraries	36
<i>Shang Gao and Xinzi Jiang</i>	
Ideological and Political Teaching Practice of Specialized Curriculums Under Mixed Teaching Mode: Take Investment Prediction and Decision as an Example	43
<i>Liyang Pan</i>	
Design of Flower Trading Application Software Based on Cloud Computing to Solve the Problem of Manual Information Entry	50
<i>Jingyu Liu, Bingran Li, Guowei Zhao, and Yongbin Zhang</i>	
Research of Lane Detection Method Based on Attention Mechanism	60
<i>Lin Wang and Rongyu Lv</i>	
The Use of Metaphor in Conceptual Learning of College English Vocabulary	67
<i>Ling Zhou</i>	
Design of an Introduction Robot for Exhibition	73
<i>Kai Fang, Xin Xu, and Guanghui Yan</i>	

Research on the Optimization of Information Technology Security Under
the Circumstance of 5G Network 80
