Table of Contents

- About the Authors.....xi**
- About the Technical Reviewerxiii**
- Acknowledgmentsxv**

- Chapter 1: Getting Started with Ubuntu Linux for Robotics..... 1**
 - Getting Started with GNU/Linux 1
 - What Is Ubuntu? 2
 - Why Ubuntu for Robotics?..... 3
 - Installing Ubuntu 3
 - Minimum PC Requirements 4
 - Downloading Ubuntu..... 4
 - Installing VirtualBox 5
 - Creating a VirtualBox Machine 6
 - Step 1: Adding a New Virtual Machine..... 6
 - Step 2: Naming the Guest Operating System 7
 - Step 3: Allocating RAM for the Guest OS 7
 - Step 4: Creating a Virtual Hard Disk 8
 - Step 5: Configuring the Type of Virtual Disk..... 10
 - Step 6: Choosing Ubuntu DVD Image..... 12
 - Step 7: Starting Virtual Machine 16
 - Installing Ubuntu on VirtualBox..... 17
 - Installing Ubuntu on a PC..... 28

TABLE OF CONTENTS

Playing with the Ubuntu Graphical User Interface	30
The Ubuntu File System	31
Useful Ubuntu Applications	33
Getting Started with Shell Commands	34
Terminal Commands Cheat Sheet.....	36
man: Manual Pages for Shell Commands.....	36
ls: List Directory Content	36
cd: Change Directory	37
pwd: Current Terminal Path	37
mkdir: Create a Folder	38
rm: Delete a File	38
rmdir: Delete a Folder.....	39
mv: Move a File from One Place to Another.....	40
cp: Copy a File from One Path to Another	41
dmesg: Display a Kernel Message.....	41
lspci: List of PCI Devices in the System.....	42
lsusb: List of USB Devices in the System	43
sudo: Run a Command in Administrative Mode.....	43
ps: List the Running Process	44
kill: Kill a Process	45
apt-get: Install a Package in Ubuntu	45
dpkg -i: Install a Package in Ubuntu.....	48
reboot: Reboot the System	49
poweroff: Switch Off the System.....	49
htop: Terminal Process View.....	50
nano: Text Editor in Terminal.....	51
Summary.....	52

Chapter 2: Fundamentals of C++ for Robotics Programming.....	53
Getting Started with C++.....	54
Timeline: The C++ Language	54
C/C++ in Ubuntu Linux	54
Introduction to GCC and G++ Compilers.....	55
Installing C/C++ Compiler	55
Verifying Installation.....	56
Introduction to GNU Project Debugger (GDB).....	57
Installing GDB in Ubuntu Linux	57
Verifying Installation.....	58
Writing Your First Code.....	59
Explaining Code.....	61
Compiling Your Code.....	61
Debugging Your Code	63
Learning OOP Concepts from Examples.....	66
The Differences Between Classes and Structs.....	67
C++ Classes and Objects	70
Class Access Modifier.....	72
C++ Inheritance	73
C++ Files and Streams.....	78
Namespaces in C++	80
C++ Exception Handling.....	82
C++ Standard Template Libraries	84
Building a C++ Project.....	84
Creating a Linux Makefile	85
Creating a CMake File	88
Summary.....	90

TABLE OF CONTENTS

Chapter 3: Fundamentals of Python for Robotics Programming93

- Getting Started with Python 94
- Timeline: The Python Language 94
- Python in Ubuntu Linux 95
 - Introduction to Python Interpreter 95
 - Setting Python 3 on Ubuntu 20.04 LTS 95
 - Verifying Python Installation 96
- Writing Your First Code..... 97
- Running Python Code..... 99
- Understanding Python Basics 100
- What’s New in Python? 101
 - Static and Dynamic Typing 101
 - Code Indentation 102
 - Semicolons 102
 - Python Variables 102
 - Python Input and Conditional Statement 104
 - Python: Loops 106
 - Python: Functions 108
 - Python: Handling Exception 110
 - Python: Classes 111
 - Python: Files 114
 - Python: Modules 115
 - Python: Handling Serial Ports 117
 - Installing PySerial in Ubuntu 20.04 118
- Python: Scientific Computing and Visualization 120
 - Python: Machine Learning and Deep Learning 121
 - Python: Computer Vision..... 122

Python: Robotics.....	122
Python: IDEs.....	122
Summary.....	123
Chapter 4: Kick-Starting Robot Programming Using ROS	125
What Is Robot Programming?	125
Why Robot Programming Is Different.....	127
Getting Started with ROS	130
The ROS Equation.....	133
Robot Programming Before and After ROS.....	133
The History of ROS.....	134
Before and After ROS	137
Why Use ROS?.....	137
Installing ROS.....	138
Robots and Sensors Supporting ROS.....	146
Popular ROS Computing Platforms	149
ROS Architecture and Concepts.....	150
The ROS File System.....	153
ROS Computation Concepts	155
The ROS Community	156
ROS Command Tools.....	156
ROS Demo: Hello World Example	161
ROS Demo: turtlesim	163
Moving the Turtle.....	166
Moving the Turtle in a Square	168
ROS GUI Tools: Rviz and Rqt.....	169
Summary.....	171

TABLE OF CONTENTS

Chapter 5: Programming with ROS	173
Programming Using ROS.....	173
Creating a ROS Workspace and Package.....	174
ROS Build System	178
ROS Catkin Workspace	179
src Folder.....	179
build Folder.....	179
devel Folder	179
install Folder.....	180
Creating a ROS Package	180
Using ROS Client Libraries	182
roscpp and rospy	183
Header Files and ROS Modules.....	183
Initializing a ROS Node.....	185
Printing Messages in a ROS Node.....	186
Creating a Node Handle	186
Creating a ROS Message Definition	187
Publishing a Topic in ROS Node	187
Subscribing a Topic in ROS Node.....	188
Writing the Callback Function in ROS Node.....	189
The ROS Spin Function in ROS Node.....	190
The ROS Sleep Function in ROS Node.....	190
Setting and Getting a ROS Parameter	191
The Hello World Example Using ROS.....	192
Creating a hello_world Package.....	192
Creating a ROS C++ Node.....	194

Editing the CMakeLists.txt File	196
Building C++ Nodes	197
Executing C++ Nodes.....	198
Creating Python Nodes	201
Executing Python Nodes.....	202
Creating Launch Files.....	203
Visualizing a Computing Graph	205
Programming turtlesim Using rospy	206
Moving turtlesim.....	207
Printing the Robot's Position.....	212
Moving the Robot with Position Feedback.....	217
Reset and Change the Background Color	219
Programming TurtleBot Simulation Using rospy	224
Installing TurtleBot 3 Packages.....	224
Launching the TurtleBot Simulation	225
Gazebo Simulation.....	226
Moving a Fixed Distance Using a Python Node.....	227
Finding Obstacles	229
Programming Embedded Boards Using ROS	230
Interfacing Arduino with ROS	230
Installing ROS on a Raspberry Pi	237
Burning an Ubuntu Mate Image to a Micro SD Card	239
Booting to Ubuntu	239
Installing ROS on a Raspberry Pi	240
Summary.....	240

TABLE OF CONTENTS

Chapter 6: Robotics Project Using ROS241

- Getting Started with Wheeled Robots 241
- Differential Drive Robot Kinematics 242
- Building Robot Hardware 246
- Buying Robot Components..... 247
 - Robot Chassis 247
 - Additional Motors and Wheels 248
 - Motor Driver..... 248
 - Optical Encoder 249
 - Microcontroller Board..... 251
 - Bluetooth Breakout..... 251
 - Sharp IR Range Sensor..... 252
 - Block Diagram of the Robot..... 253
- Assembling Robot Hardware..... 255
- Creating a 3D ROS Model Using URDF 255
- Working with Robot Firmware 261
- Programming Robot Using ROS 264
- The Teleop Node..... 268
- The Twist Message to Motor Velocity Node..... 269
- The Diff to TF Node 269
- The Dead-Reckoning Node 270
- Final Run 271
- Summary..... 274

Index.....275
